="LoanActivityTypeCollectionMV" TYPE="COL

="LoanActivityDateCollectionMV" TYPE="COL

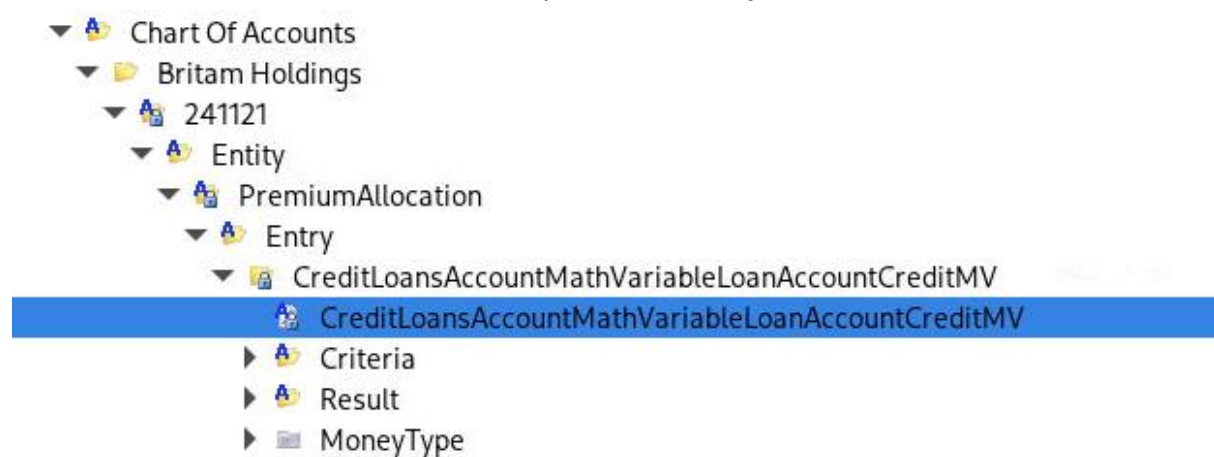

="LoanActivityNameCollectionMV" TYPE="COL

="LoanAmountCollectionMV" TYPE="COL

If that transaction also exist already , we should be able to start editing from

The screenshot shows a software window titled "Chart Of Accounts" with a tab labeled "Chart Of Accounts Entry". On the left, a "Steps" pane lists three steps: "1. Chart Of Accounts Entry", "2. Chart Of Accounts Criteria", and "3. Chart Of Accounts Result". The main area contains several input fields and dropdown menus: "Account Number Format" (empty), "Effective From Date" (12/30/2034), "Effective To Date" (empty), "Entry Description" (empty), "Credit/Debit" (Credit), "Type" (empty), checkboxes for "Gain/Loss" and "Flip On Negative", "Accounting Amount" (empty), "Fund Type" (empty), and "Transaction Money Types" (a list with "1035 Exchange", "ADD Rider Charge", and "AdHoc Premium"). At the bottom are buttons for "< Back", "Next >", "Finish", "Cancel", and "Help".

User should also be able to view if he opens the hirarcy,

Then he should be able to view all related info..

Chart Of Accounts Entry
